

SWIVEL TOOL CLAMP

The Swivel Tool Clamp expands the working flexibility of right-angle tools when mounted to a Mountz CTA telescoping arm. By allowing the tool to articulate and lock into multiple positions, it improves access to difficult fastening points while maintaining stability during operation.

The swivel clamp provides 270 degrees of rotational working range, allowing operators to reposition the right-angle tool to reach fasteners that would otherwise be difficult or impossible to access with a fixed-mount tool.

Item #	Telescoping Arm Models	Insert Info	Compatible with Mountz EC & ECT Right Angle Models
260469	CTA-15	Insert E4 (36mm)	EC,ECT50200-RA,50300-RA,ECT50204-RA,50304-RA,ECT50104-RA,50124-RA,ECT50100-RA,50120-RA
